Mpho Sello

Bloemfontein, Free State (available immediately) • 067 668 7955 • sellompho1601@gmail.com • linkedin.com/in/mpho-sello-692193241

Data Analyst skilled in Excel, SQL, and Python, with practical experience cleaning, analyzing, and reconciling complex datasets for local and international clients. Experienced in handling missing values, building data validation checks, identifying discrepancies, and transforming raw data into meaningful insights on sales performance, customer behavior, payment trends, and business performance. Certified through IBM Skills Build and Oracle Analytics Cloud, with Power BI currently in progress.

Projects

Retail Data Cleaning and Dashboard Projects | Excel | Public Kaggle datasets

- Cleaned and validated a 12,575-row retail transactions dataset: recovered missing values with formulas, checked calculations on a separate verification sheet, and built a dashboard of revenue, quantity, discounts, and payment behavior by category.
- Cleaned a 1,825-row daily retail sales dataset: filled missing categories using related fields, estimated missing sales and quantities with category medians, and flagged unrecoverable records instead of guessing. Analyzed sales, quantity, and profit by category and region over a full year.
- Analyzed 5,000 retail transactions: confirmed whether discounts were already included in transaction amounts by checking against the source data, then built a PivotTable dashboard on payment behavior, customer demographics, and seasonal order trends.

Skills

- **Data Analytics & Reporting:** Excel (PivotTables, formulas, charts, dashboards, data validation), data cleaning, data validation, trend analysis, reporting
- **Programming & Databases:** Python, SQL (SELECT, filtering, aggregate functions, GROUP BY, JOINs; MySQL Workbench), data transformation and cleansing
- **BI Tools:** Power BI (currently learning), Oracle Analytics Cloud (certified)
- **Tools:** Jupyter Notebook, VS Code, Git
- **Professional Skills:** attention to detail, problem-solving, written and verbal communication, time management, teamwork

Certifications

- Oracle Analytics Cloud | Oracle
- Python 101 for Data Science | IBM Skills Build
- Cloud Database Fundamentals | IBM
- Spark Fundamentals I | IBM Big Data University
- FNB App of the Year Awards | Academy Participant

Education

COURSEWORK COMPLETED 2026 – GRADUATING 2027

Information Technology (Software Development) | Sol Plaatje University | Kimberley, Northern Cape

- Core modules: Data Analysis and Visualization, Big Data Programming, Software Engineering, Web Development, Mobile App Development, Information Systems, Networking, Project Management, ICT Fundamentals, Business Practice, Professional Communication.

National Senior Certificate | Bainsvlei Combined School | 2019
